Operating Office: Decima Strada 52, 10137 - Interporto SITO (TO)

PI/CF: 113421200

The structure of the Torino Terminal Container is located in an area of about 10,000 square meters located inside the Interporto S.I.To. of Orbassano (TO) and makes available all the types of services connected to the transport and handling of containers.

We put at your disposal:

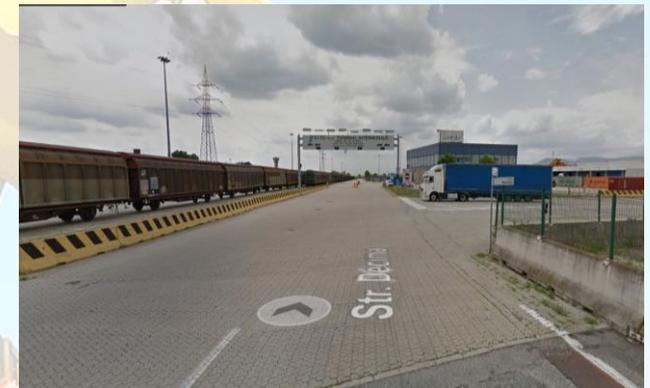

- ✓ 5 cranes, two of which are reachstacker type with piggy back for moving swap bodies;
- ✓ Over 50 vehicles dedicated to road transport;
- ✓ A video surveillance area for the storage of containers, fenced according to the standards of the Shipping companies;
- ✓ A tensile structure for the realization of customs visits;
- ✓ A computer system for travel management;
- ✓ A dedicated channel for container weighing reservations.

### ***Main services offered***

- Container transport
- Container handling and storage
- Weighing containers
- Customs visits
- Workshop for repairing vehicles and containers

### **How to reach us**

From the south ring road of Turin, take the Interporto S.I.To. exit and follow the signs for Interporto Nord. When you are at the entrance to the northern highway at the stop of the "eighth road" turn right and at the first intersection continue to the left in the "seventh road". At the first intersection, turn right into "10th street" and follow it to the bottom where you will find the intermodal terminal.
